

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

A REFERENCE BOOK FOR ALL WHO REQUIRE FIRE, CASUALTY OR MISCELLANEOUS INSURANCE

REPORTS OF FIRE INSURANCE COMPANIES

Every merchant, manufacturer or property owner carrying fire, casualty, fidelity, liability or other insurance (other than life), particularly those requiring large lines, who are frequently obliged to accept policies of unlicensed or light-weight fire insurance companies, or else have their property under-insured, should have at hand a copy of "REPORTS OF FIRE INSURANCE COMPANIES," by which to judge of the quality of the policies offered by agents and brokers. This book presents the latest statements of about 900 fire and marine insurance companies, in detail, with lists of their investments, etc., and also comparative statements of about 200 casualty and miscellaneous insurance companies for a series of years.

The information concerning each company is segregated, so that all desired data relating to a single company may be found by one reference, the companies being arranged in alphabetical order in their respective groups. The book also contains a complete Index.

This publication is *a compendium of the various State insurance department reports* upon fire insurance and is *more than the equivalent of a library of such reports,* for it contains the statements of many companies which are not given in any State reports, but which companies are soliciting business in the United States.

The work embraces the following-named classes of institutions: American Stock Fire and Marine Insurance Companies (licensed); Foreign Fire and Marine Insurance Companies (licensed in the United States); American Mutual Fire and Marine Insurance Companies; Underwriters Agencies; Lloyds and Reciprocal Underwriters' Associations; Unlicensed Foreign Fire Insurance Companies; Casualty and Miscellaneous Insurance Companies.

Some of the information which is presented for the individual fire and marine companies is briefly described below:

ASSETS, DECEMBER 31, 1918.	LIABILITIES, DECEMBER 31, 1918.
Real estate.	Losses unpaid.
Mortgage loans.	Unearned premiums.
Bonds and stocks.	Perpetual deposits reclaimable.
Collateral loans.	Other liabilities.
Cash.	Total liabilities.
Agents' balances.	Capital paid up.
Interest and rents.	Net surplus.
Other assets.	
Total admitted assets.	Total.

In elaboration of the above-specified items of assets, the companies' real estate holdings and mortgage loans are described, in sufficient detail to assist in the formation of an opinion as to their value; detailed lists of securities for collateral loans, and bonds and stocks owned, with values, etc., are given; tabulations showing the standing and business of the companies for a series of years are presented; and names of officers, directors, general and special agents are included, with other interesting and helpful information.

The San Francisco conflagration losses of the respective companies, with information concerning their consequent surplus contributions, remittances of foreign companies, etc., are also presented in this book.

The data contained in "REPORTS OF FIRE INSURANCE COMPANIES" are such as to render this publication of the utmost usefulness to all who buy or sell fire, marine, casualty or other kinds of insurance (except life). It enables the possessor to discover at once the character, importance and degree of reliability of any company whose agency or policy he is likely to be offered; and gives sufficient detail to enable him to form a just opinion upon such a company.

"REPORTS OF FIRE INSURANCE COMPANIES" comprises 460 pages, and is substantially and handsomely bound in red cloth and gold. Price per copy, $5.00, sent prepaid to any address in the United States, or any country in the Postal Union, on receipt of price.

The information embraced in this book is kept up to date by means of eleven MONTHLY SUPPLEMENTS, which will be furnished to subscribers to the book at $2.00 per annum, or $7.00 with the Annual Book. An excellent binder for the Supplements may be obtained for $1.00.

Founded 1865

The Provident Life and Trust Company of Philadelphia, Pa.

The variety of endowments offered by the Provident is of great advantage to the agent in his canvass. In canvassing a prospect under 30, the Provident agent finds in his rate book a choice of not fewer than 55 different endowment forms. The agent finds it easier to awaken interest, and the prospect gets a better fit.

WHAT LIFE INSURANCE IS

AND

WHAT IT DOES

A PRIMER FOR LAYMEN AND STUDENTS

An elementary text book on Life Insurance bearing the above title has been written by William Alexander, of New York, at the suggestion of the National Association of Life Underwriters, and published under the auspices of that body, with the name of THE SPECTATOR COMPANY, Insurance Publishers, on the title page.

This book is not designed exclusively for agents, but it will be of the highest value to insurance salesmen, because it explains in the clearest and simplest manner all the elementary truths about life insurance with which the agent should be familiar.

It then describes the life insurance company and the manner in which its business is conducted, and next analyzes the policy forms.

The rest of the book deals with the following topics:

Fraternal and Assessment Insurance.
Annuities.
The Development and Scope of Life Insurance.
Popular Fallacies.
How to Select a Company.
Definitions and Explanations of Technical Words and Phrases.
How Premium Rates are Determined.

At the end there is a supplementary chapter of practical advice to the insurance salesman.

Although the book is not addressed to the agent, all the arguments which induce men to insure are embodied in it, and the arguments that induce men to insure are the arguments that enable insurance men to sell.

The price is **$1.50.**

Wholesale rates for fifty or more copies will be quoted on application.

LIFE INSURANCE CATECHISM

By Theodore J. Venn.

A treatise on protection presented by means of questions and answers. This new, revised and enlarged edition is a brief but comprehensive course in life insurance, as it embraces a brief history of the various forms of life insurance, a description of the different kinds of policies issued and an explanation of the legal reserve annually set aside to meet the individual policyholder's increasing mortality rate. The author shows clearly the necessity of the reserve, and also indicates its advantages as a financial protection for old age, bringing out the manner in which it constantly decreases, in all participating contracts, the net annual cost of insurance in the face of the assured's advancing years.

PUBLISHERS' ANNOUNCEMENT

Yearly, during the last forty-six years, THE INSURANCE YEAR BOOK has been published, growing steadily with the expansion of the insurance business, and adding new features to its mass of information as the conditions demanded. The publishers therefore take pleasure in presenting the forty-seventh annual edition, and in acknowledging the widespread recognition that has been accorded this publication, both in this country and abroad.

The 1919 edition of the YEAR BOOK is issued in two volumes, as heretofore, one being devoted to LIFE, CASUALTY and MISCELLANEOUS INSURANCE, and the other to FIRE and MARINE INSURANCE. Each volume contains the standard statistics regarding companies and their transactions that are necessary to perfect their history from year to year. These statistics are brought forward to include their transactions to December 31, 1918. Some of the principal features of this volume are briefly summarized as follows:

FIRE AND MARINE VOLUME

The section entitled "Reports of Fire Insurance Companies" presents information more or less exhaustive concerning nearly 1,000 fire and marine insurance organizations (including unlicensed companies).

The importance of the fire and marine insurance transactions in the United States is indicated by the grand totals for 1918 here exhibited, taken from the Recapitulation Tables of the Fire and Marine Volume of the Insurance Year Book:

Number of companies	725	Total income	$794,375,658
Capital paid up (U. S. Cos.)	$131,221,257	Losses paid	346,391,430
Assets	1,212,248,401	Dividends (Am. Cos., incl. mut.)	46,877,701
Surplus	389,919,951	Expenses	253,593,405
Net premiums	737,854,056	Total expenditures	646,862,536

Fire Departments and Water Supply is the title of a department in which is given extensive information as to the fire protection of 8,491 cities and towns in the United States and Canada. This department occupies about 480 pages, closely printed.

The Directory of Insurance Agents (including also lists of Insurance Attorneys and Adjusters) occupies about 284 pages, 4 columns to the page, and includes about 63,000 names, being the most comprehensive list of its kind extant. Comprised therein are about 56,000 agents (35,000 of whom write fire insurance) and about 7,000 attorneys and adjusters.

The list of companies that have Failed or Retired contains about 2,900 names.

Data are presented as to insurance companies in 50 Foreign Countries.

The officers of nearly 400 Underwriters' Organizations are given.

The Premium Receipts of individual companies are tabulated for 12 cities.

Notable Conflagrations in the World's History comprise about 400 such events from B. C. 1897 to A. D. 1919.

The list of Large Fires in the United States and Canada embrace nearly 400 fires occurring in the last two centuries, each causing $1,000,000 or more of loss.

In addition to the foregoing, there is a considerable amount of other useful information presented regarding various features of the insurance business, each adding its quota to the value of this volume, which, aside from advertising matter, contains over 1,300 pages. The Life and Miscellaneous volume also embraces more than 1,300 pages, comprehensively covering its peculiar field.

Our thanks are due to the heads of Insurance Departments of the various States and to officers of companies for their courtesy and promptness in furnishing us with desired information.

New York, July 3, 1919. THE SPECTATOR COMPANY.

FIRE PREVENTION AND PROTECTION HIGHLY COMMENDED

Space will not permit reprinting all the strong endorsements The Spectator Company has received since the recent publication of "Fire Prevention and Protection." We reproduce below Extracts from a few:

F. A. Raymond, C.E., E.E., M.E., Fire Protection Engineer with THE NATIONAL BOARD OF FIRE UNDERWRITERS, says:

"The book covers the field of fire protection thoroughly; probably in no other single volume is combined so much of practical information concerning fire prevention and protection and allied subjects. The book will unquestionably be of great interest and value to architects, builders, superintendents, master mechanics and others interested in practical fire protection as well as to the fire insurance fraternity and fire departments."

Chief John Kenlon, of the New York Fire Department, commended as follows:

"Hutson is eminently qualified and has at his command all the technical data to present a work of this kind."

C. S. Demarest, chief of construction of the New York Fire Department, has written Mr. Hutson as follows:

"You are deserving of considerable credit for the able manner in which you have gotten up the new edition of "Fire Prevention and Protection," and it should be procured by any and every one having anything to do with the subject matter covered."

Reports of Fire Insurance Companies

INTRODUCTION

The financial men and those in charge of credits of mercantile and manufacturing establishments are frequently obliged to pass upon the strength and desirability of various fire insurance companies, for the protection of their trade interests, and are thus made to realize the importance of obtaining their insurance from safe and strong companies. However, they often find it very difficult to secure an adequate volume of good insurance to cover their large properties. The conditions which had existed prior to the great San Francisco conflagration of April 18-21, 1906, not having been fully met by the legally authorized fire insurance companies, had led to the formation of numerous companies and Lloyds associations, and, later, to the organization of many inter-insurance associations, some of which had not gone through the formality of securing licenses from the State insurance officials of their respective States, and had also tempted a considerable number of foreign companies to write "surplus line" risks without making any deposit of cash or securities in this country or securing a license from any State Insurance Department. The conflagration, being followed by a greater scarcity of insurance, brought about the organization of numerous new companies, and business houses requiring considerable lines of insurance find themselves dependent, to some extent, upon such companies, many of which have ample assets to conduct business along reasonable lines, although several have already gone out of business.

A development of these conditions, in conjunction with the desire of most insurance agents and business men to have at hand some authority on the standing of the fire insurance companies, both licensed and unlicensed, with which they deal from time to time, has been a realization of the desirability of not only having all such information embraced within a single volume, instead of scattered through numerous different State reports and loose documents, but of having, equally available, sufficient details as to assets, liabilities, etc., to enable those interested in any particular company to judge as to its actual standing. The increased export trade due to the world war has also engendered greater interest in the standing of marine insurance companies. To meet these requirements, this section of The Insurance Year Book has been prepared. We trust that it will be found serviceable in giving subscribers correct information as to the standing of concerns whose policies they may be offered, and in saving them from dealing with unreliable companies. In this connection we suggest that subscribers read carefully the remarks at the head of each of the respective groups of organizations.

AMERICAN STOCK FIRE AND MARINE INSURANCE COMPANIES

The following pages contain abstracts of the official statements covering the year 1918, of all regularly licensed joint stock fire and marine insurance companies now domiciled and operating in the United States, together with summaries of their condition and business for each of the last five years.

NOTE.—The Net Premiums given in the following tables, for practically all of the companies, represent the gross premiums written less amounts of reinsurance, rebate, abatement and return premiums applying to business written in each year, respectively. Total income excludes deposits received on perpetual policies, premiums of previous year received, and other extraneous items. Expenses exclude deposits returned on perpetual policies and other items which cannot properly be classed as expenses.

MISCELLANEOUS: This company was incorporated December, 1915, with an initial capital of $200,000 to transact an ocean and inland marine business; also to write all automobile risks excepting personal liability. Commenced writing business, March 1, 1916. In 1919 capital increased from $300,000 to $400,000 by stock dividend, and from $400,000 to $600,000 by sale of new stock at 400%, thus adding $600,000 to surplus. The company is licensed in N. Y.

DIRECTORS: C. P. Stewart, J. R. Van Horne, Edward S. Benfield, Geo. A. Gaston, R. H. Lee Martin, W. D. Keeson, O. J. DuFour, Arthur Hoyt, J. B. Austin, Jr., Wade Robinson, W. E. Goodridge, H. W. Letton, Max May, Amos J. Mace.

REMARKS: The company's statement showed a loss in underwriting in 1917, due to the fact that the Ins. Dept. of N. Y. could not allow the company to take credit for certain reinsurance in responsible companies not licensed in N. Y. state. This affected the underwriting result and also reduced the surplus about $300,000. Allowing credit for this reinsurance, the surplus on December 31, 1917, was $628,298, and the 1917 underwriting showed a substantial profit.

AMERICAN NATIONAL FIRE INSURANCE CO., Omaha, Neb.

President, W. H. Ahmanson; Secretary, Wm. L. Wilcox. Organised, 1919.

This company is in process of organization, with $1,500,000 of capital and $1,500,000 of surplus proposed.

AMERICAN REINSURANCE COMPANY, Hartford, Conn.

This company filed its incorporation papers with the Connecticut Legislature early in 1915 as the Fire & Casualty Reinsurance Company of Hartford, but a subsequent bill submitted changed the name to that of the American Reinsurance Co. The company asked for a charter allowing for a capital of $500,000, with the privilege of increasing to $5,000,000 when the directors so desire.

It is proposed to write fire and casualty reinsurance. The list of incorporators is as follows: Morgan G. Bulkley, R. M. Bissell, Morgan R. Brainard, L. B. Brainerd, William BroSmith, L. F. Butler, C. E. Chase, W. B. Clark, F. T. Maxwell, Edward Milligan, C. L. F. Robinson, C. L. Spencer and John L. Way.

MISCELLANEOUS: This company guarantees the policies of the New England Underwriters' Agency. The company started business, 1885, with $1,500 capital, which was subsequently increased by cash payments as follows: 1886, to $25,000; 1887, to $50,000; 1889, to $100,000; 1891, to $200,000; 1915, to $300,000. Conflagration loss: Chelsea, 1908, $32,619; Salem, 1914, $45,736.

DIRECTORS: Charles L. Jackman, Josiah E. Fernald, Fred N. Ladd, I. M. Savage, F. T. Jackman, Edward G. Leach, J. D. Mills, Willis D. Thompson, A. H. Britton, Benjamin C. White.

FIELD MEN AND TERRITORY COVERED: Special agents, F. T. Jackman, A. R. Kendall, Concord, N. H., for N. H., Vt.,

CAPITAL FIRE INSURANCE COMPANY of Concord, N. H.—*Continued.*

Mass. and R. I.; John W. Gailey, Bedford, Pa., special agent for western Pa.; Mills & Honness, managers for Metropolitan and suburban district, New York; Percy B. Dutton, Rochester, N. Y., general agent for N. Y. State outside of district covered by Mills & Honness; M. J. O'Malley & Co., Scranton, Pa., general agents for eastern Pa., Raymond W. Webster, Hartford, Conn., special agent for Conn. The company operates in Conn., Mass., N. H., N. J., N. Y., Pa., R. I. and Vt.

REMARKS: Among the liabilities of this company is noticed borrowed money owing to the amount of $138,000. This situation naturally enlarges the assets to the extent named; that is, if the loan had been paid, the assets would have been depleted by the amount of the loan. Of the $300,000 capital stock, the directors own $26,800.

MISCELLANEOUS: Company was organized in 1853 with a capital of $500,000; increased in January, 1872, to $1,000,000; in 1872, made up by "calls on capital" impairment of $400,000 (40 per cent). In 1910 the capital stock was increased from $1,000,000 to $2,000,000 by a stock dividend. In January, 1916, the capital was increased to $10,000,000 by transferring $7,000,000 from surplus and selling $1,000,000 of stock at par. The Continental, together with the Fidelity-Phenix, guarantees the policies issued in Canada, under the title of the Fidelity Underwriters. EAGLE FIRE INSURANCE COMPANY, Newark, N. J.—*Continued.*

MISCELLANEOUS: This company commenced business in May, 1913, with a paid-up capital of $100,000 and $72,000 surplus; it was further increased in November, 1913, to $200 000 and $72,000 additional surplus added by cash subscriptions. Capital increased to $250,000 April, 1917, and $40,000 additional surplus paid in. In June, 1918, par value of the stock was reduced to $20 per share, thereby transferring $50,000 from capital to surplus. At the same time, $50,000 capital and $62,500 surplus was paid in, thereby maintaining capital at $250,000. In April, 1919, capital was increased to $400,000 by the payment of $150,000 additional, and $187,500 additional surplus was paid in. It transacts a reinsurance business by treaty only throughout the U. S. Assets and liabilities, 1917, and 1918 on N. J. basis.

This company was incorporated in 1864 as the Home Mutual Ins. Co., and the name was changed to Home Fire and Marine in 1900, but discontinued business following the San Francisco conflagration in 1906, at which time the company's stock was entirely owned by the Firemans Fund. It was the intention of the owners of the Firemans Fund to rehabilitate the Home Fire and Marine, and it was accordingly revived in 1918.

The Home Fire and Marine is rapidly establishing an efficient agency plant for fire, marine and automobile business having already been licensed in forty-seven states.

The capital stock of the Home Fire and Marine is $500,000, which is divided into 50,000 shares with a par value of $10 a share. As the stock was subscribed to at the rate of $30 a share and carried no promotion expenses, a surplus of $1,000,000 was thereby created, which placed the company upon a sound financial basis and provided for a wide field for activity.

Willard S. Brown & Co., have been appointed managers for the Metropolitan district of New York City.

MISCELLANEOUS: The Lincoln Fire Insurance Company of Nashville, Tenn., was incorporated under the Tennessee laws in 1913 with an authorised capital stock of $100,000. The organization expenses will come out of the surplus which will be about 25% by the time the full amount of stock has been paid. The company began writing business about July 1, 1917. The company was promoted by the American Securities Company mainly through the people who have charge of the active work of the Lincoln Fire Insurance Company. It was organised for the purpose of specialising on industrial fire insurance and operates under the same system as industrial life or industrial sick and accident insurance companies, procuring a larger rate of premium and furnishing weekly collectors and inspectors. It also does an ordinary business in a small way, mainly on dwellings and furniture, not exceeding a liability on any one risk of $1,500. It subscribes to the Tennessee Inspection Bureau rates and all ordinary policies are issued at the standard board rates.

MISCELLANEOUS: This company began business as the National Lumber Insurance Company with a paid-up capital of $200,000 and a surplus of $50,000. On Dec. 31, 1913, the company reinsured its outstanding risks in the New Hampshire Fire, its writings in January, 1914, also being automatically reinsured in the New Hampshire. The company continued business in a more restricted territory with Crum & Forster, New York, as its general agents. Early in 1916 the control of the company was sold and the name changed to New York National. In 1917 $30,000 was voluntarily contributed to surplus. In August, 1919, the N. Y. State Ins. Dept. took possession of this company.

VICTORY FIRE INSURANCE COMPANY, Philadelphia, Pa.

The capital stock of the Victory Fire of Philadelphia, the new running mate of the Fire Association, was oversubscribed by 150 per cent. More than three-fourths of the new stock went to the present stockholders of the Fire Association of Philadelphia. Both companies will be conducted by the same executive staff and served by the same special and general agents and managers, the salaries and incidental expenditures being equally divided, although the companies are separate and distinct institutions. In a great many cases the same local agency will represent both companies.

President Irvin stated that the Fire Association has yearly been giving away at least $2,000,000 in premiums because it was not financially equipped to write the volume of business offered. This large excess of business will now be given to the Victory Fire.

MISCELLANEOUS: The Phœnix was the first English fire company to open an American branch, an office having been established in Philadelphia in 1804. Six years later hostile legislation led to its withdrawal. While the Phœnix was interested in United States business through reinsurance treaties (by which it lost $500,000 at Chicago in 1871 and $250,000 at Boston in 1872) it did nor re-enter for direct business until 1879. The dominant interests in the Phœnix also control the Imperial Assurance Co. of New York. In 1907 the company acquired the business of the Pelican and British Empire Life Offices. The home office statement of the Phœnix as of December 31, 1917, shows that it then had $92,349,169 of assets, including the paid up portion of its capital, $2,050,846. Its subscribed capital is $15,571,652. Conflagration losses: Baltimore, 1904, $472,769; San Francisco, 1906, $2,518,804. San Francisco losses were paid by remittances from home office. Values of special deposits: Ga., $9,300, Va., $19,740; N. C., $9,500.

MISCELLANEOUS: The Royal Exchange began transacting marine insurance in 1696, and secured its charter (under which it now writes fire insurance) in 1720. At home, it transacts fire life, sea, burglary, accident and employers' liability insurance, but confines its writings in the United States to fire and marine insurance. It began business in the United States in 1891, on the Pacific Coast, and in 1898 commenced a general business, with headquarters in New York. As of January 1, 1919, its home office statement showed £10,269,190 of assets; its paid-up capital being £689,220. Conflagration losses: Baltimore, 1904, $402,558; San Francisco, 1906, $2,968,637. Baltimore and San Francisco losses were paid by remittances from home office. Values of special deposits: Va., $59,000; N. C., $10,000; Ga., $10,000; O., $100,000; Mass., $200,000.
